SKILLS

- **Languages:** C++, JavaScript, C, PHP
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB
- **Soft Skills:** Problem-Solving Skills, Communication Skills, Quality assurance

PROJECTS

Restaurant Website

November 2024

- The Restaurant Website is a platform designed for users to browse the menu, place orders, and view their order history.
- Crafted a modern, responsive UI with CSS3, Flexbox, and Grid, ensuring the site works smoothly across different devices and screen sizes.
- Integrated React Router for navigation between different pages, such as the menu, cart, and order history.
- The platform offers a smooth user experience with intuitive navigation and efficient state handling, allowing users to easily explore the menu and place orders.

Tech: React, JavaScript, CSS3, Flexbox, Grid, React Router

Chat Application

April 2024

- The Chat Application project is designed to enable real-time communication between users through instant messaging. The platform allows users to send and receive messages instantly, promoting engagement and seamless interaction.
- Developed a live messaging system for immediate communication between users, boosting engagement and interaction.
- Implemented WebSocket technology for maintaining persistent connections, achieving low-latency communication and a smooth user experience.
- The Chat Application successfully provides a platform for users to communicate instantly and securely.

Tech: WebSocket, Node.js, Express.js

Social Media Website

February 2024

- A Social Media Website, where users can create profiles, post content, like, and comment.
- Implemented interactive features like user posts, comments, and likes entirely on the client-side using JavaScript and DOM manipulation.
- Designed a modern, responsive user interface with CSS3, Flexbox, and Grid, ensuring seamless performance across different devices and screen sizes.
- The platform enables users to create profiles, share content, and engage with posts through likes and comments. The interactive design and dynamic features provide a smooth user experience across different devices.

Tech: HTML, CSS, JavaScript, Flexbox, Grid
